FULL STACK DEVELOPER

I am a highly skilled web developer with over **3.3 years of experience** in **JavaScript, TypeScript, ReactJS (Hooks), Redux (saga/thunk), Node.js, Express.js, Next.js, React Native, MongoDB, OOPs, HTML5, CSS3, Bootstrap, Tailwind, Video JS, TAL BBC Framework, Apache Superset/E-Charts**. I have extensive experience with RESTful APIs, asynchronous request handling, and CI/CD pipelines. Additionally, I am proficient in testing frameworks such as Jest and React Testing Library (RTL) to ensure robust and error-free applications.

TECHNICAL SKILLS

Languages	: JavaScript, TypeScript, HTML, CSS, Core Java
Frameworks	: React.js, Redux (saga/thunk), React Native, Next.js, Express.js
Libraries	: Tailwind CSS, Bootstrap, SASS, Material UI, Video JS, TAL BBC Framework, Apache Superset, Echarts
Databases	: MongoDB, Mongoose, MySQL
Dev Tools	: VS Code, Git, Bitbucket, Jira, Github Actions, Docker
Testing	: Jest, React Testing Library (RTL), Postman(Api testing)

EXPERIENCE

Lead Engineer <i>HCLTech</i>	Dec 2024 – Present <i>Bengaluru, India</i>
<ul style="list-style-type: none">Expanded skills into full-stack development, Node.js, React, Redux, Node.js, Express, Next.js, MongoDB JestDeveloped and maintained responsive, high-performing web and mobile applications, ensuring optimal user experience across various devicesImplemented Git and CI/CD pipelines to enhance version control and streamline deployment processes, successfully reducing the go-to-market time by 30%	
Software Enginner <i>BufferZero</i>	Aug 2021 – July 2024 <i>Bengaluru, India</i>
<ul style="list-style-type: none">Expanded skills development React, Redux, Node.js, Express, Next.js, React-NativeWorked on various client projects as a core contributor, delivering high-quality solutions tailored to client needsCollaborated effectively with cross-functional teams to drive project success and enhance user experienceMaintained up-to-date knowledge of industry trends and best practices, ensuring cutting-edge solutions	

EDUCATION

MMU University <i>Bachelor of Technology in Mechanical Engineering</i>	Ambala, Haryana Jan 2016 – Dec 2020
--	--

PROJECTS

Book Flight GitHub Link Frontend GitHub Link Backend	<i>JavaScript, TypeScript, ReactJS, Redux-Saga, Node.js, Express.js</i>
<ul style="list-style-type: none">Implemented a full-stack application with a team size of 3+ using the MERN stackDeveloped role-based login: users can book flights and request approval; admins can approve or reject requestsUtilized Formik and Yup for efficient form handling and validationStyled the application using Tailwind CSSIntegrated React-toastify for user notificationsManaged routing with React-router-domDeveloped backend services with Express and Node.jsSecured the application using Bcrypt for password encryption and Jsonwebtoken for authentication	

- * Handled HTTP requests with Axios and implemented response interceptors
- * Enhanced application security with Helmet and configured CORS
- * Logged application activities using Winston
- * Conducted testing with Jest and React Testing Library
- * Documented the codebase using JsDoc and implemented global error handling and code splitting for optimized performance

Find Jobs

JavaScript, TypeScript, Next.js, Redux-Saga

GitHub Link

- * Next.js full-stack application with a team size of 2+
- * Developed role-based login: job seekers can apply for jobs, and admins can post job listings
- * Utilized Formik and Yup for efficient form handling and validation
- * Styled the application using Tailwind CSS
- * Integrated React-toastify for user notifications
- * Secured the application using Bcrypt for password encryption and Jsonwebtoken for authentication and Handled HTTP requests using Fetch
- * Conducted testing with Jest and React Testing Library

Apache Superset

JavaScript, TypeScript, ReactJS, Redux, React-Native, MySQL, Python

- * Clients: Flipkart, Amazon, Tesora, Nykka, Stahl
- * Developed and maintained the project with a team size of 15+ over a duration of 1 year
- * It's a middleware application between customers and service providers to find product details, prices, reviews, and trending items
- * Provided custom date-wise inventory information to business managers through graphs and charts (bar, line, mixed charts)
- * Enabled access on Web, Android, and iOS platforms
- * Developed various Superset dashboards for displaying product data with chart tooltips
- * Created a mobile Superset app from scratch using React-Native, including navigation, forgot/reset password flow, and add/remove favorites
- * Involved in bug fixes for both Superset web and mobile applications
- * Used GitHub for code maintenance and JIRA for bug tracking

FAB Loan Application

JavaScript, Tailwind CSS, HTML, React JS, React Redux

- * Client: First Abu Dhabi Bank
- * Developed and maintained the project with a team size of 8+ over a duration of 1.1 years
- * It's a loan application for UAE and non-UAE users to apply for loans quickly
- * Acted as a core contributor in developing pre-eligibility criteria forms for further processing
- * Utilized Axios for API calls and React routing for navigation
- * Used Redux to store data and functions
- * Styled the application using Tailwind CSS
- * Maintained code locally using Bitbucket or Git

Erosnow

React JS, HTML, CSS, Video JS, TAL BBC, Typescript

- * Client: Eros Now
- * Developed and maintained the project with a team size of 10+ over a duration of 7 months
- * Eros is a video on-demand platform providing entertainment for users
- * Worked on the Jobs-Module Development
- * Utilized TAL BBC framework for smart TV development
- * Worked with Video JS for streaming
- * Handled horizontal and vertical components and various widgets
- * Implemented UI components and functionality for Logixplayer (Logituit)

- * Fixed bugs related to responsiveness in Logixplayer

Grocery Shopping Cart

JavaScript, Tailwind CSS, HTML, React JS, React Redux, React Native

- * Client: Easy Buy
- * Developed and maintained the project with a team size of 15+ over a duration of 6 months
- * It's a shopping cart website UI compatible with both mobile and desktop platforms for online shopping of commodities like clothes and accessories
- * Developed reusable components for login, registration, and home page
- * Acted as a core contributor in developing login and registration functionalities
- * Implemented React routing for navigation to contact, home, and login pages
- * Utilized Memo and Proptypes for better performance
- * Used Redux to store data and functions related to the cart

PERSONAL DETAILS

- **Language** : English, Hindi
